## Sample code

```
function init() {
  //complete the code below
  plat.innerText = navigator.platform;
  navigator.geolocation
    .getCurrentPosition(p =>
      loc.innerText = p.coords.latitude.toFixed(4) + " , "
      +p.coords.longitude.toFixed(4)
    );
  navigator.getBattery().then(b =>
    lev.innerText = battery
  );
  navigator.getBattery().then(function(battery) {
    $('.progress-bar').css('width', battery.level * 100 + '%');
    $('#level').html('Battery level: ' + (battery.level * 100).toFixed() + '%')
    battery.onlevelchange = function() {
      $('#level').html('Battery level: ' + (this.level * 100).toFixed() + '%')
      $('.progress-bar').css('width', this.level * 100 + '%');
    };
  });
  check()
}
function check() {
  //complete the code below
  fetch(url.value).then(r => resp.innerText = r.ok? 'OK' : '404')
    .catch(e =>
      resp.innerText = e
    )
}
```
